

## **Belinda's Funny Bones**

### **Ingredients**

- Half package (7 ounces) white meltable candy wafers
- 36 pretzel sticks and thin rods of various lengths
- 72 mini marshmallows (about 1 cup)

Follow the instructions on the candy wafers package to melt the candy in a wide bowl. For each bone, press marshmallows onto both ends of a pretzel stick or rod, with the marshmallows' flat sides parallel to the pretzel. Dip each pretzel into the melted candy to coat it. Lift it out with a fork, letting the excess drip back into the bowl. Place the bone onto a sheet of waxed paper to set at room temperature. Bleached white bones never tasted so delicious.
